[REDACTED] the RU and Peninsula Red Guard (PRG) members in the MFU are under orders to try to collectivize the leadership of the MFU with the object of turning it into an armed Marxist-Leninist collective with the ultimate purpose of bringing it into the RU (u)

The PRG is characterized in the Appendix.

A source has advised that RU members can teach any class they wish at the MFU, however, this is also true of any individual who is registered with the MFU. The RU does not control the MFU but through its contacts has some influence on the activities of the MFU. There has been no indication that the RU as such exercises any influence in the administration of affairs of the MFU. The RU has no influence over what type of courses will be taught at the MFU and their only control would be offering courses taught by RU members themselves. (u)

The Winter 1969 catalog of the MFU, in the section concerning Political Action, contains the following statement concerning the Ad Hoc Committee to Liberate Downtown Palo Alto:

During the past year, as the Free U community expands and becomes an important element in the Midpeninsula, we have encountered considerable resistance from the powers that be; their resistance has resulted in political action.
